

AIR

SAUNA HEATER

Inspired by traditions

Tylö Air is a completely new heater from Tylö, who has drawn their inspiration in creating the Air inspired by age-old sauna traditions. The Air sauna heater comes equipped with an over size stone compartment, which is a contributing factor to the soft and delicate delivery and distribution of heat. It is available in 10,5 kW and comes equipped with a possibility to multi-phase electric connections.

Air is controlled with Pure touch control that has an elegant and compact design.
